MOTDAY, MAY 20, 1605.

Same Old Rebel Spirit,

Is a recent speech at the anniversary of Gettysburg Post, G. A. R., Congress man Morse referred to the dedication of a "monument to the Confederate soldiers" in Chicago and said that " in bo other country were traiters ever allowed to build monuments to glorify treason. These words are taken jby the Boston Traveller as the text for a rebuke to Congressome Morse who is informed that it - not proposed to dedicate the monument to Confedérate soldiers as such, but is an emblem of "personal mourning und of a common heritage of American-ism." This sounds well but it contains the very eighent of "misrepresentation" which the Traveller attributes to the

The very design of the monument reotes the theory advanced by the Traveller. is suctious ted by a bronze figure rep-enting a Confederate soldier dressed calculated and intended to convey the udpression that such was the condition Douglass. In other words the evident on of the designer was to convey the nex that rebel prisoners were treated of the loyal soldiers who were unfortuto be captured by the onemy. It is a well known historical fact. that when an exchange of prisoners was head the rehels went forth from the Northern prisons in better physical condition than when captured, while the is tal prison gens released men so complotery shiftlered in budy and mind that nearly of them but a he carried out of "heitholes" in which they but been -ulified to the most inhuman treat

The meanifest is therefore a plane at tempt to Edsily Listory. If the Traceller desires to give its readers a gorrect, force et the sentiment of the men who are ch imploiting this invasion of Northern territory by the erection of, a monument to so unbody and treasonable cause, it could not do better than publish some of the etters dailed forth by Commander Thuy it's patriotic protest. Here are a lew choice extracts:

they choice extracts:

I am sure neither the blood of your marty red and generous, though bustard lameds, ner your "noble" and lighting, though stracker (grant would cry out gaust this slight testinonial to a brave to. Cannot you poor fellows in the North be selisted with biseding the toverment (which you profess to have set the rate of \$150,000,000 a year for lawing overwhelmed an arthy which had one man to your five.

had one man to your five.

I suppose you are in your doinge or you would not make such an ass of yourself, for it shows that you have not as much sense as dould be contained in a grain of mushard seed. The Confederate dead are as notle as the Udion dead, your childsh views to the congrary notwith standing.

your childish views to the contrary not-with-tanding.
I will say, too, that no much with a spatk of the souther would give utrerance to such a speech. Such fined as you serve to keep the breach open between the North and the South, but we honor the brave deeds of our fathers. I will say, too, that no man with a spark of souther in his composition would transple on the feelings if our people by continuing to utter such speech s. We are Americans free bern. We do not ask you or any of your hischings to dictife to us what we shall or shall not do. Such men as you neve been a curse to our Southern Starts. You have tried to trample us down, but God in His mercy will yet see us arise.

Then there is a long screed signed by the Thirty-first Leorgia Cavalry address-ing Commander Thayer as " Bombastes Furioso" which asks " who was outriged then you and your hordes of felfication of the Lost Cause. It will be transping upon the feelings of the men who - aight the downfall of the Governayal patraots who are to be catinged by the nedication of this rebel monument on the very day they are souttering flowers upon the graves of their comrades, or the feelings of the widows and orphans made such by the cause which these ex-repets are possistently flaunting in ther faces? A Congressman Morse said no other country would permit this glorification of treason and it night to be perif open here.

England and Hawaii.

that terest Britain has turned her eyes in the direction of flawall and will soon assume a policy of laterference that may result in the downfall of the existing Government. The pretext in this case is the same as that which led to the occupartion of Corinto, namely, the very proper punishment of men engaged in conspiracy who claim to be under English protection. It seems to be an established fact that the two men, Rickard and Watker, have acquired full Hawaiian ritizensh p. but John Bull, it is intimated, does not intend to permit this to stand in the way of his project.

Up to this time, notwithstanding the treacherous attitude of the Cleveland administration, the Republican form of government has been able to cope with all internal disorders, but if the royalists conspirators and to have the active encouragement of Great Britian on the one hand and at least the passive hostity of the American government 4s now constituted on the other, it is difficult to see how I realdent | Jole can withstand the combination. A member of President Cleveland's Cabinet is appounced as saying that if Great Rritain presses any claim against the government of President Dole growing out of the Funishment of so-called English subjects for participation in the recent rebellion, Hawali will have to settle the slieged grievance without any assistance from the Cleveland administration.

entned the contempt not only of the SPRING AND SUMMER SUITS AND OVERCOATS American people, but of the foreign powers which are to-day, taking advan-tage of its humillating suberviency. Great Britain seems also likely to have her own way in the Behring Sea matter without interference or protest from the Administration. Having mocked, the United States at Corinto, the British Government is now proceeding to set aside the regulations framed and promorgated by the International Court which sat at Paris for the avowed pu pose of preventing any possibility of dia agreement as to the matter in which the seal fisheries in Beliring Sea should be conducted. When the decision of that court was first announced, it was at opce.

evident that Great Britain was the prin-cipal beneficiary, and now it appears that the greedlest of all nations is not going to be satisfied until everything goes its way. The President has acted in this matter, as he has in all other foreign questions, by promptly accepting he British view.

As the American people review the bu millating record of the past two years the universal cry is "Oh, for an hour o Blaine in the State Department."

Texas Bankers Adopt a Resolution.
GALVESTON, Texas, May is. The
State Bankers Convention yesterday
adopted the following resolution:
Resolved, That it is the deliberate conviction of this association that the free
and unlimited coinage of silver is not
advisable under the present conditions.
We believe that it would work great
disaster to all our industries and enterprises and a great wrong to the wage
earners of the coolarty. That we heartily endorse any effort haward securing
the free use of silver as money currency
at a fixed ratio to gold by agreement
among the leading commercial nations of
the world through international treaties.

He was asked if all chances of confederation of Newfoundland and Canada were a thing of the past, and he said! Canada's propositions as regards confederation were of such a nature that Newfoundland could not accept them and as the government of Canada had decidined the counterproposal made by the Newfoundland derigates, the matter could be definitely settled as declared off.

Mr. Bond saided that the Newfoundland government was perfectly willing that the imperial government should appoint a combission to examine into the financial condition of the colony.

London View of the Situation.

London, May 18. The Daily News says that the protest of the St. Johns, Newfoandland, merchants against confederation is well adapted to lufturned public opinion here. There is no desire to force Newfoundland into union with Ganada, although there will be no objection to confederation if the colony desires it. The refusal of the Marquis of Repon, the Colonial Secretary, to give financial heir is justified by the merchants' plea. The merchants should get the colony to request the appointment of the profilered royal commission.

Hor Rocent Trial Falled to Reach
Expectations.

Boston, May 18. A special to the
Herald from Washington says: The
inoncind rom Katahdin it is said, has
falled to reach expectations, and as a
result of the trial ran given the vessel
by the contractors asveral days ago,
some important changes thay be necessary. It is regarded as doubtful, howover, whether the government will ever
succeed in gotting out of the vessel the
speed that was promised by the designer.
The trouble is thought to be due to some
faute in the design, as, as high speed, the
ship digs into the water and scooping up
hundleds of the of it, is empelled to
sarry this great weight. Unless a device can be provided to get rid of this
water, it is feared, that the chip can
landly be utilized for what she was in-

A meeting of the directors of the Good Will Home Association was held at the barm March 10th Among the important matters discussed was protection sgalnet lire. This had been talked of before, but it was difficult to determine what was best. At this meeting in March it was thought that a ladder on the roof of such cottage and a Miller Pres. March it was thought that a ladder on the roof of nucle cottage and a Miller Fire Lxtinguished in each cottage would furnish protection. But there was the expense How could be net? Ladders and fire extinguishers cost I ordered ladders made, confident I could pay for them in some way I corresponded with the manufacturers of fire extinguishers. The price is \$180 per dozen. The treasury could not stand the expense of half a dozen. While the correspondence was in progress a latter arrived asking what was specially needed at the Parm. This inquiry was made because the Golden Rule Good Will Club of Brunswick had just held an entertainment for the Domith, of the Homes I replied at once "Fire Extinguishers and Ladders." The same day the check arrived from the Golden Rule Good for \$110 17. This pays the bill and the Golden Rule Good. arrived from the Golden Rule Club for \$110 17. This puts the bill and the Golden Rule Club of Brunswick has the satisfaction of knowing that every dollner worth of property dt the Farm, which represents so many acts of saorifice and devotion on the part of a multitude of fields, is eafer because of its efforts.
